

Why CNA Connect® for Technology Companies?

small
business

Technology business risk is complex enough. Business insurance shouldn't have to be.

CNA finds ways to simplify the insurance purchasing process for your clients and provide the tools necessary to help you capture the tremendous market opportunity available in the technology industry. CNA Connect® is our proprietary business owners' policy, providing small business technology clients broad and relevant protection, with several optional coverage endorsements that offer increased deductible options and a wide range of limit options for both Property and General Liability coverages. Many of the coverage options are uniquely designed and not typically offered in today's competitive marketplace.

Key points to consider:

- More coverage and higher limits available on a single policy
- The flexibility to exclude coverages to reduce premiums
- Increased deductible options for controlling risk
- A larger number of coverages with increased limit options
- Easy to tailor to specific customer needs

If you are looking for flexible, adaptable and complete coverage to keep up with the ever-transforming risks of technology clients ... **we can show you more.®**

A broad appetite for technology business.

CNA insures a wide portfolio of technology companies whose operations include software development, programming, systems integration, IT consulting, as well as communications consulting and services. In addition, manufacturers and distributors of computers and peripherals, electronic components, instruments, and telecommunications equipment are eligible. CNA considers not just the operations of your technology client, but also who your client is working for, allowing us to write a broader range of businesses than most other carriers in the marketplace. Our team of industry experts provides customized protection to meet your clients' varying needs.

Coverages available on CNA Connect® to provide a complete solution for your technology clients:

Technology Errors & Omissions coverage with optional Information Risk & Media Liability endorsements — CNA Central is now your one-stop-shop for your small business technology risks. You can now prepare a single policy, including Tech E&O, for all eligible technology SIC codes, saving you valuable time. It all comes together in a single bill for your clients, and it's all available to you in one convenient online destination.

CNA Connect® Technology Choice Endorsement — This property extension provides a wide range of coverage limits at a nominal price. Coverages such as Business Personal Property at Unnamed Locations, Business Income and Extra Expense – Dependent Property, and Utility Services Direct Damage and Time Element are just a few of the important coverages included in this one endorsement. Additionally, increased limits may be available for an even more customized insurance solution.

Technology Liability Extension Endorsement — A value-added way to provide many technology-specific enhancements, which have been requested separately in the past. This extension endorsement includes coverages such as Broad Knowledge of Occurrence, Expanded Personal and Advertising Injury and Primary/Non-contributory coverage for Additional Insureds with written contracts.
